

KWSO Community Advisory Board Meeting

Friday September 14, 2018

2-4pm - Warm Springs Media Center

Those in Attendance:

Carol Prevost - Warm Springs Indian Health Service

Diane Fuller - Warm Springs Indian Health Service

Michele Gonzales - Victims of Crime Services

Sue Matters - KWSO Station Manager

MINUTES

2018 PSA Campaigns

There was a review of Public Service Campaign Themes in 2017 and thus far in 2018. Health campaigns were predominant with Diabetes Education leading the way. In 2018 that is followed by Child Health (5-2-1-0), Parenting (Conscious Discipline), Warm Springs Community Action Team Classes/Programs, Crime Prevention, and Disaster Preparedness.

If any program or department is interested in disseminating information - KWSO would be happy to partner. There is opportunity as well to not only do on air messaging but also print/online articles and social media posts in collaboration with the Spilyay Tymoo.

2018 KWSO survey

Results were shared showing that 91% of people surveyed at the Pi-Ume-Sha Health Fair indicate they listen to KWSO. Also shared some of the things people said they would like to learn more about. This helps influence topics for program production. Drugs/Alcohol, Housing, Family & Culture were top responses.

Group Feedback

There was appreciation for the variety of content KWSO shares. Talked a little bit about a refocused effort to do new messaging for Victims of Crime Services.

Projects in the works

- The Dan Macy piano project which is looking for funds to restore the donated player piano. Programming and maybe some kind of display or show about the project could include audio interviews but also photos/video. Can have both a music and history focus that looks at the 40s and 50s in Central Oregon. Ongoing efforts are being made to identify funding sources.
- KWSO wants to get an Americorps/Vista staff person to do a KWSO Impact Study. It would be an effort to show our effectiveness, and how

people have taken action or altered behavior because of programming, etc. This could be useful in telling KWSO's story but also for others in the community to better understand what we do and what they can do.

- Added a new underwriting opportunity this year. We have a goal of 10 new underwriters and are up to 3 - so with room to grow - this effort will continue.
- Staffing has been reduced over the past 15 years. In order to start new initiatives but also just to maintain current levels of programming we could use more help. Funding is the issue - but if we can focus on content areas - we might be able to find some grants. Would love to create more Multimedia Producer positions. This means radio work but also increasing our work in: video, photography, print & social media. We only have one such staff position like this right now.
- Antenna Relocation - Before the end of 2018 KWSO will move its antenna to a higher location on our Eagle Butte tower. This should help the signal in some locations. Elevation is even better than power for terrestrial radio stations.

CPB compliance - Harassment Training

All staff successfully took an online workplace harassment class and so KWSO has met this new CPB requirement

Revenue

KWSO operation funding comes from the Corporation for Public Broadcasting in a Community Service Grant, from the Confederated Tribes of Warm Springs through the Health & Human Services Branch, and through revenue raised as part of our operations. That revenue includes: Underwriting & Membership programs; Tower Management; Tower Lease payments (Eagle Butte radio tower) and assorted other small efforts.

Minutes and handouts will be emails to Community Advisory Board members not in attendance to share information about KWSO and encourage input and collaboration.
