The Boil Water Notice is still in effect for Warm Springs Agency area. The agency water needs to be tested for drinkability and hopefully by this Friday it could be cleared. “As with any aging system, we could still experience main line breaks that could require specific areas to lose water pressure and possibly require a localized boil water notice. If these isolated issues arise, we will do our best to notify folks as soon as we possibly can.” Travis Wells, General Manager, Branch of Public Utilities.
