1/10
1.1 Employment of Full-Time Radio Employees

Please enter the gender and ethnicity of each person with disabilities listed above (e.g. 1 African American female).

1.2 Major Programming Decision Makers

Please report by gender and ethnic or racial group the headcount of full-time employees having responsibility for making major programming decisions. Include the station general manager if appropriate. Major programming decisions include decisions about program acquisition and production, program development, on-air program scheduling, etc. This item should result in a double-counting of some full-time employees; employees having the responsibility for making major programming decisions should be included in the counts for this item and again, by job category above, in the full-time employee Question 1.1.

1.2 Major Programming Decision Makers

Of the full-time employees reported in Question 1.1, how many, including the station general manager, have responsibility for making major programming decisions?

1.6 Full-Time and Part-Time Job Openings
Enter the total number of full-time and part-time openings that occurred during the fiscal year. Include both vacancies in previously filled positions and newly created positions. Include all positions that became available during the fiscal year, regardless of whether they were filled during the year. If a job opening was filled during the year, include it regardless of whether it was filled by an internal or an external candidate. Do not include as job openings any positions created through the promotion of an employee who stays in essentially the same job but has a different title (i.e. where there was no vacancy or newly created position to be filled). If no full-time or part-time job openings occurred, please enter zero.

3.1 Governing Board Method of Selection
Enter the number of governing board members (including the chairperson and both voting and non-voting ex-officio members) who are selected by the following methods:

- Ex-Officio (Automatic membership because of another office held)
- Appointed by government legislative body (including school board) or other government official (e.g. governor)
- Elected by community/membership
- Other (please specify below)

The Confederated Tribes of Warm Springs Tribal Council acts as KWSO's Governing Board. Elections are held every three years for 8 members of Tribal Council that are decided on by vote from three voting districts. There are also 3 hereditary Chief positions that serve for life, that represent each of the three Tribes of the Confederated Tribes - the Warm Springs, Wasco & Paiute peoples. Currently there is a vacancy for the Wasco Chief who passed away in 2022. His successor has not yet been decided on by the Wasco people.

3.2 Governing Board Members
For minority group identification, please refer to "Instructions and Definitions" in the Employment subsection.

4.1 Community Outreach Activities

Did the grant recipient engage in any of the following community outreach services, and, if so, did the outreach activity have a specific, formal component designed to be of special service to either the educational community or minority and/or other diverse audiences?

Yes/No

4.1 Community Outreach Activities

Produce public service announcements?

Yes

Did the public service announcements have a specific, formal component designed to be of special service to the educational community?

Yes

Did the public service announcements have a specific, formal component designed to be of special service to the minority community and/or diverse audiences?

Yes

Broadcast community activities information (e.g., community bulletin board, series highlighting local nonprofit agencies)?

Yes

Did the community activities information broadcast have a specific, formal component designed to be of special service to the educational community?

Yes

Did the community activities information broadcast have a specific, formal component designed to be of special service to the minority community and/or diverse audiences?

Yes

Produce/distribute informational materials based on local or national programming?

Yes

Did the informational programming materials have a specific, formal component designed to be of special service to the educational community?

Yes

Did the informational programming materials have a specific, formal component designed to be of special service to the minority community and/or diverse audiences?

Yes

Host community events (e.g. benefit concerts, neighborhood festivals)?

Yes

Did the community events have a specific, formal component designed to be of special service to the educational community?

Yes

Did the community events have a specific, formal component designed to be of special service to the minority community and/or diverse audiences?

Yes

Provide locally created content for your own or another community-based computer network/web site?

Yes

Did the locally created web content have a specific, formal component designed to be of special service to the educational community?

Yes

Did the locally created web content have a specific, formal component designed to be of special service to the minority community and/or diverse audiences?

Yes

Partner with other community agencies or organizations (e.g., local community TV station, Red Cross, Urban League, school district)?

Yes

Did the partnership have a specific, formal component designed to be of special service to the educational community?

Yes

Did the partnership have a specific, formal component designed to be of special service to the minority community and/or diverse audiences?

Yes

6.1 Telling Public Radio’s Story

The purpose of this section is to give you an opportunity to tell us and your community about the activities you have engaged in to address community needs by outlining key services provided, and the local value and impact of those services. Please report on activities that occurred in Fiscal Year 2022.
Responses may be shared with Congress or the public. Grantees are required to post a copy of this report (Section 6 only) to their website no later than ten (10) days after the submission of the report to CPB. CPB recommends placing the report in an "About" or similar on your website. This section had previously been optional. Response to this section of the SAS is now mandatory.

6.1 Telling Public Radio's Story

1. Describe your overall goals and approach to address identified community issues, needs, and interests through your station's vital local services, such as multiplatform long and short-form content, digital and in-person engagement, education services, community information, partnership support, and other activities, and audiences you reached or engaged in your community.

At KWSO we continue to align much of our locally produced content with the goals of the Branch of Tribal Government which we are part of – Health & Human Services. Guidance comes from the Joint Health Commission strategies for community health and wellness. Health program priorities, strategies and plans include promotion of healthy cultural and recreation events that promote community, pride and belonging. Health and Mental Health education related to: specific diseases & conditions, risks, available resources, opportunities and encouragement for health improvement. We work closely with programs within our branch who are on the front line and who include: Behavioral Health; Community Health & Wellness; Children's Protective Services; Prevention; Social Services; Homeless Initiative; Recreation & Senior Wellness. Additional content is created in the areas of Tribal Governance, Public Safety, Public Utilities and Infrastructure, Education and Schools, Culture & Heritage, Native Language, Social Services, and Natural Resources. We partner with the programs and organizations in those arenas to deliver timely information and education. Broadcast content is delivered in multiple ways utilizing weekly news magazines, daily short form local news casts, pre-recorded public service announcements, and live reads. That partners with all the posts of the same content in the form of podcasts, social media posts, website articles, and videos. KWSO remains committed to monitoring new trends that emerge in our community. We are at the ready to create new content to increase awareness and educate across our platforms.

2. Describe key initiatives and the variety of partners with whom you collaborated, including other public media outlets, community nonprofits, government agencies, educational institutions, the business community, teachers and parents, etc. This will illustrate the many ways you're connected across the community and engaged with other important organizations in the area.

Mental Health and Wellness remains an ongoing focus. New information shared in 2022 included perspective about Trauma and its impact on physical health and your body. We worked with an MD working out of our Behavioral Health program sharing how traumatic events in life impact both mental health as well as physical health. KWSO created both broadcast series and a social media campaign on "Addiction" in collaboration with our Prevention Programs. Another series/campaign was created on "Protective Factors" – what that is and how they can make a positive difference especially in the lives of youth. Protective Factors are a key element in the Warm Springs Tribes Joint Health Commission Strategies in creating a healthier community. Protective Factors was also the focus of a KWSO news magazine that ran for a week and was also posted as a podcast. The Addition and Protective Factor efforts were coordinated and produced by college student interns. On Air Writing, written articles in our Tribal Newspaper (Siyayl Tyum) and social media posts were created for two series dealing with Stress and dealing with Grief. Our partner was a Warm Springs Tribal Member who is a Licensed Clinical Psychologist who works at a local hospital. The need for identified Tribes of Warm Springs is to consists of three distinct Tribes with unique languages and cultural practices. Since 1986, KWSO has been recording language lessons in each of those languages in collaboration with the Culture & Heritage language classes with student at our K-8 school and KWSO. In 2022, began recording new lessons – and rotating them in with lessons that we air routinely that come from our archives. Working with our Tribal Newspaper and the Language Program we created new language lesson videos as well – expanding our on-air content to other mediums all with a goal of revitalizing language. These video lessons can easily be assessed on the KWSO website and app. Education The Jefferson County 509-J School District operates schools that youth in Warm Springs attend. KWSO annually provides opportunity to school officials to share updates on happenings in their territories. In 2022, KWSO continues to produce a week-day segment featuring news and events from our K-8 Academy. This past year we were able to coordinate the information included in the segment with the monthly newsletter, sent out by the school officials in sharing multiple times for keep abreast of everything from school closure days, to the monthly character trait being focused on, to contact details to the Family Access Network for resources, to protocols for lockdowns vs. lockdowns. An assistant principal, instructional leader, and school counselor help to create the content and record the segments. In 2022 we celebrated educational milestones with families and we celebrate creating videos of the end of the year powwow at our K8, giving a shout out to 8th grade graduated, and capturing a walk through of high school graduates in the halls of the K8.

6.1 Telling Public Radio's Story

3. What impact did your key initiatives and partnerships have in your community? Describe any known measurable impact, such as increased awareness, learning or understanding about particular issues. Describe indicators of success, such as connecting people to needed resources or strengthening conversations across diverse neighborhoods. Did you see an increase in requests for related resources? Please include direct feedback from a partner(s) or from a person(s) served.

Measuring impact is always a challenge. KWSO has conducted pre and post surveys at events, partnered with collaborators to collect data, and included online surveys in on air surveys. We track data about the work we create and information we push out – but how it impacts people is hard to correlate. For the 3 initiatives listed above here is what we learned about impact: • When we first aired a weekly news magazine on non-physical trauma does indeed have impact on the body in physical ways – KWSO received more calls than usual asking for the Doctor’s name who was being interviewed and how could folks connect with him. • Rain Circle who works at the CTWs Language Program and is coordinating their multimedia work. He noted being able to hear the language on the radio and then connect it with a written lesson that has visual components in personal learning and immersion. KWSO’s videos that combine the audio lesson with the visual – brings another layer for learners.” • Ardis Clark is an instructional leader at the Warm Springs K-8 Academy. She is actively involved in creating “Eagle News” segments that run weekday mornings on KWSO. She shared that “without having hard data – we do know that when KWSO focuses extra attention on an event or on awareness of a specific nature that we want families to understand – it does make a difference. Attendance will be up at school activities or teachers find that their parents/guardians are already informed.”

6.1 Telling Public Radio's Story

4. Please describe any efforts (e.g. programming, production, engagement activities) you have made to investigate and/or meet the needs of minority and other diverse audiences (including, but not limited to, new immigrants, people for whom English is a second language and illiterate adults) during Fiscal Year 2022, and any plans you have made to meet the needs of these audiences during Fiscal Year 2023. If you regularly broadcast in a language other than English, please note the language broadcast.

KWSO is owned and operated by the Confederated Tribes of Warm Springs Oregon. We are located on the Warm Springs Reservation in rural Central Oregon. We serve a predominantly Native American population with all that we offer. Language Revitalization efforts come in different audio formats hourly, daily & weekly language programming that includes the Kiksht or Wasco – Ichishkin or Sahaptin – and Numu or Paiute languages. There is a growing number of learners – with language classes now included in local schools. In addition to broadcast work – there is access to language lessons online as well. All KWSO we offer information that includes what resources are available to the individuals and families who may be struggling financially in other ways. Not to say that a minority population has greater challenges than other populations – but socioeconomic level does seem to be more prevalent in the homes of many minority communities. Historical trauma also continues to impact lives in our minority community in a negative way and so we continue to educates about why that is similar to how that works, and how to overcome.

5. Please assess the impact that your CPB funding had on your ability to serve your community. What were you able to do with your grant that you wouldn’t be able to do if you didn’t receive it?

Without CPB funds, KWSO would no longer be able to offer NPR programming to our community. Specifically, we would have to cut back all National News. We would have to cut 50% of our local news coverage with staffing reductions. National Programming, in general, would need to be dropped. This would significantly impact KWSO operations – but also into our listeners who rely on KWSO for accurate and timely news, not available elsewhere and certainly not available to the financial resources to afford a satellite TV service or reliable internet and a smart TV. In addition to positive financial impact CPB offers KWSO, being a Community Service Grant station indicates a level of national recognition for us. Exposure to the journalism standards and execution of programming we enjoy because of CPB.

Questions

3. What impact did your key initiatives and partnerships have in your community? Describe any known measurable impact, such as increased awareness, learning or understanding about particular issues. Describe indicators of success, such as connecting people to needed resources or strengthening conversations across diverse neighborhoods. Did you see an increase in requests for related resources? Please include direct feedback from a partner(s) or from a person(s) served.

Measuring impact is always a challenge. KWSO has conducted pre and post surveys at events, partnered with collaborators to collect data, and included online surveys in on air surveys. We track data about the work we create and information we push out – but how it impacts people is hard to correlate. For the 3 initiatives listed above here is what we learned about impact: • When we first aired a weekly news magazine on non-physical trauma does indeed have impact on the body in physical ways – KWSO received more calls than usual asking for the Doctor’s name who was being interviewed and how could folks connect with him. • Rain Circle who works at the CTWs Language Program and is coordinating their multimedia work. He noted being able to hear the language on the radio and then connect it with a written lesson that has visual components in personal learning and immersion. KWSO’s videos that combine the audio lesson with the visual - brings another layer for learners.” • Ardis Clark is an instructional leader at the Warm Springs K-8 Academy. She is actively involved in creating “Eagle News” segments that run weekday mornings on KWSO. She shared that “without having hard data – we do know that when KWSO focuses extra attention on an event or on awareness of a specific nature that we want families to understand – it does make a difference. Attendance will be up at school activities or teachers find that their parents/guardians are already informed.”
