Ending : March 27,2024 @ 10 pm

WHO: Water Treatment Plant Contractors

WHY: Water Plant Electrical and Control system start up

CONTACT: Chico Holliday

Public Utilities Office 541-553-3246

PURPOSE:

The existing water treatment plant has been going through a Project Design Build (PDB) for the last 3-4 years to maintain compliance with Federal, State and Tribal Rules and Regulations.

The Environmental Protection Agency had issued Order of Consent 1414 and 1431 to the Tribes in 2019.

EPA and the Tribal Staff has been working hard and in unison to accomplish this task to provide clean, safe drinking water through this renovation project.

The PDB project includes but limited to the removal/replacement of equipment such as pumps, motors, control valves, electrical upgrades, chemical analysis and also incorporating a SCADA system.

Currently the existing system is run manually and this PDB will allow the operators to have better monitoring and controls to the water plant.
