## CONSERVATION ORDER FOR SCHOOLIE FLATS

03/12/2025

HAS BEEN RESCINDED/LIFTED.

Public Utilities have temporarily brought on-line the new water booster station when the emergency repairs of the old pump failed due to electrical stator failure.

Utilities are currently operating the new booster pump system in manual mode at this time.

We are confident that the required equipment and telemetry system that are to be implemented will occur soon. We are currently looking at a number of equipment devices and quotes are being sought to make this water booster system automated.

As we transition from winter to the hot summer months be mindful of water consumption and conservation falls upon us all to do our part to help sustain appropriate water levels in our areas.

If you see water leakage from a water service line, water box or bubbling water surfacing, please call water/wastewater On-Call number at 541-777-1335.

An employee is assigned and rotated weekly but is made available 24/7.

Chico Holliday  
Public Utilities General Manager
